HOMELAND ENERGY CORP.

(A Development Stage Company)

CONSOLIDATED INTERIM FINANCIAL STATEMENTS THREE AND SIX MONTHS ENDED JUNE 30, 2007

These consolidated interim financial statements are unaudited and have not been reviewed by the auditors.

Responsibility for Consolidated Interim Financial Statements

The accompanying consolidated interim financial statements for Homeland Energy Corp. have been prepared by management in accordance with Canadian generally accepted accounting principles consistently applied. The most significant of these accounting principles have been set out in the December 31, 2006 audited annual financial statements. Only changes in accounting principles have been disclosed in these consolidated interim financial statements.

These consolidated interim financial statements are presented on the accrual basis of accounting. Accordingly, a precise determination of many assets and liabilities is dependent on future events. Therefore estimates and approximations have been made using careful judgment.

Recognizing that the Company is responsible for both the integrity and objectivity of the consolidated interim financial statements, management is satisfied that these consolidated interim financial statements have been fairly presented. This disclosure has been approved by the Board of Directors.

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Three and six months ended June 30, 2007

(Stated in Canadian Dollars)

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Homeland Energy Corp. (the "Company" or "Homeland") is a privately owned development stage company engaged in the acquisition, exploration and development of energy related resource properties in southern Africa. The Company was incorporated as Homeland Uranium Inc. under the laws of Ontario on December 7, 2004 and on September 5, 2006 received authorization from the Ontario Ministry of Consumer and Business Services to apply for continuance into another jurisdiction. On October 12, 2006, the Company was continued into the British Virgin Islands as Homeland Energy Corp., a company incorporated under the provisions of the BVI Business Companies Act, 2004. Homeland is currently in the process of seeking a public listing for its common shares.

On June 13, 2007, the Company entered into an agreement with Chrysalis Capital IV Corporation ("Chrysalis") pursuant to which Chrysalis will acquire all of the issued and outstanding shares of Homeland, by way of the merger of a newly formed British Virgin Islands subsidiary of Chrysalis and Homeland. Upon completion of the merger, which will constitute Chrysalis' "qualifying transaction" pursuant to the policies of the TSX Venture Exchange, Homeland will become a wholly-owned subsidiary of Chrysalis. Completion of the proposed transaction is subject to compliance with all necessary regulatory approvals and certain other terms and conditions.

To date, the Company has not earned any revenues from its activities and is considered to be in the development stage. The business of exploring for, developing and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of mineral properties and the Company's continued existence is dependent upon the ability of the Company to raise additional financing, preservation of its interest in the underlying properties, discovery of commercially recoverable reserves, achievement of profitable operations, and/or the Company's ability to dispose of its interests in mineral properties on an advantageous basis. Changes in future conditions could require material write downs of the carrying values of its mineral properties.

Although the company has taken steps to verify title to the mineral properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration and development of such properties, these procedures do not guarantee the Company's title. Although management is not aware of any such agreements, transfers or defects, property title may be subject to unregistered prior agreements, claims or transfers and title may be affected by undetected defects. Assets located outside of North America are subject to the risk of foreign investment, including currency exchange fluctuations and restrictions and political uncertainty.

The Canadian dollar is the principal currency of the Company's business.

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Three and six months ended June 30, 2007

(Stated in Canadian Dollars)

2. GOING CONCERN

These consolidated interim financial statements have been prepared on a going concern basis in accordance with Canadian generally accepted accounting principles, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, the consolidated interim financial statements do not reflect any adjustments in the carrying values of the assets and liabilities, the reported expenses, and the balance sheet classifications used that would be necessary if the going concern assumption were not appropriate. Such adjustments could be material.

The Company's ability to meet its obligations and continue as a going concern is dependent upon its ability to obtain additional financing, the discovery, development or sale of mining reserves and achievement of profitable operations. The Company is planning to meet its immediate future expenditures and obligations by raising funds through private placements, public offerings, or off-take or project finance facilities. It is not possible to predict whether these efforts will be successful or whether the Company will attain profitable levels of operation.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies reflected in these consolidated interim financial statements have been outlined below and are set out in more detail in the audited financial statements for the year ended December 31, 2006.

(a) Basis of consolidation

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Homeland Mining and Energy SA (Pty) Ltd. of South Africa. All significant inter-company transactions and balances have been eliminated.

(b) Use of estimates

The preparation of consolidated interim financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of any contingent assets and liabilities as at the date of the consolidated interim financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Significant areas where management judgment is applied are asset valuations, the recoverability of exploration and development expenditures on mineral properties, the amount and classification of mineral resources and reserves, the estimated fair value of assets acquired in business combinations, the amount of future site reclamation costs and asset retirement obligations, the valuation of warrants and stock options, tax accounts, and contingent liabilities.

HOMELAND ENERGY CORP.
(A Development Stage Company)

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Three and six months ended June 30, 2007

(Stated in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company regularly reviews these estimates and assumptions that affect the consolidated interim financial statements and actual results may differ from those estimates. In the opinion of management, all adjustments considered necessary for fair presentation of the results for the periods presented are reflected in the consolidated financial statements.

(c) Mineral properties

Direct property acquisition costs, holding costs, field exploration and supervisory costs, and development costs relating to specific properties are capitalized and deferred until the property to which they directly relate is placed into production, at which time they will be amortized on a unit of production basis, or until the property to which they relate is abandoned, sold or considered to be impaired in value, at which time an appropriate charge will be made. Costs include the cash consideration paid and the fair market value of shares, warrants or stock options issued, if any, on the acquisition of exploration properties. Properties acquired under option agreements whereby payments are made at the sole discretion of the Company are recorded in the accounts at such time as the payments are made. The proceeds from options granted are applied to the cost of the related property and any excess is included in income for the year. Costs incurred for administration and general exploration that are not project specific, are charged to operations.

The recorded amounts for acquisition costs of properties and their related capitalized exploration and development expenses represent actual expenditures incurred and are not intended to reflect present or future values. The Company, however, reviews the capitalized costs on its properties on at least an annual basis and will recognize an impairment in value based upon the stage of exploration and/or development, work programs proposed, current exploration results and upon management's assessment of the future probability of profitable revenues from each property, or from the sale of the relevant property. Management's assessment of a property's current fair market value may also be based on a review of other property transactions that have occurred in the same geographic area as that of the property under review. The recovery of acquisition costs and deferred exploration is dependent upon the existence of economically recoverable reserves, the Company's ability to obtain the necessary financing to complete exploration and development and future profitable production or proceeds from disposition of such properties.

(d) Property and equipment

Property and equipment is recorded at cost less accumulated amortization. The Company provides for amortization on a straight line basis using the following rates, designed to amortize the cost of the assets over their estimated useful lives:

Plant and machinery	5 years
Motor vehicles	5 years
Office furniture and equipment	5 years
Computer equipment	3 years
Leasehold improvements	5 years

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Foreign currency translation

The Canadian dollar is the functional currency of the Company and its subsidiaries. The Company considers its South African operations to be integrated operations. As such, monetary assets and liabilities of the Company's foreign operations denominated in a currency other than the Canadian dollar are translated into Canadian dollars at the exchange rate prevailing as at the balance sheet date. Non-monetary assets and liabilities are translated at historical exchange rates prevailing at each transaction date. Revenue and expenses are translated at the average exchange rates prevailing during the year, with the exception of depreciation and amortization which is translated at historical rates. Exchange gains and losses on translation are included in the Consolidated Statements of Operations and Deficit.

	11,471,959	1

Effective February 1, 2007, the Company completed the sale of its uranium assets to Homeland Uranium Inc. ("HUI"), a private Canadian company, for 16,000,000 common shares. Following a financing by HUI that raised \$1.84 million through the issue of 8,000,000 common shares at \$0.23 per share, the Company's interest in Homeland Uranium Inc. represented approximately 65% of the issued and outstanding common shares of that company. On June 19, 2007, Homeland Uranium Inc. closed a private placement for \$23 million at \$0.80 per unit, each unit consisting of one common share and one-half of one purchase warrant, each whole purchase warrant entitling the holder to purchase one additional common share at a price of \$1.25 per share, expiring June 19, 2009. The Company participated to the extent of \$5 million in this private placement and as a result its interest in Homeland Uranium Inc. has decreased to approximately 39%. The Company has granted a call option on 2.5 million of these units at \$1.00 per unit for a period of 12 months.

7. MINERAL PROPERTIES (continued)

KENDAL MINERAL PROPERTY, MPUMALANGA PROVINCE, SOUTH AFRICA

The Kendal Project is a small coal resource, potentially opencastable, which can supply coal to the power generating industry and the domestic industrial market in South Africa. The Project lies in the Witbank Coalfield, and the surrounding areas have supported a number of mining operations. The Kendal Project is located to the south west of the town of Ogies, in the Mpumalanga Province of South Africa. The elevation of the project is some 1,580 metres above mean sea level.

Homeland has carried out a conceptual mine plan based on the results of previous exploration campaigns. The potential markets have been identified and various contractors have been approached to determine their willingness to participate in the operation. Detailed planning and the formulation of the necessary contractual arrangements will be completed on receipt of a granted Mining Right.

Tshedza Mining Resources (Pty) Limited ("Tshedza") - South Africa

In March 2006, the Company entered into an agreement to purchase a 50% interest in Tshedza, including its Eloff coal deposit, with an option to acquire a further 1% for ZAR 1.00. Homeland is required to fund all costs associated with the applications for prospecting, as well as all costs associated with any granted prospecting rights through to the granting of a mining license. On October 11, 2006, Tshedza was granted the rights to prospect on five of its projects.

ELOFF MINERAL PROPERTY, MPUMALANGA PROVINCE, SOUTH AFRICA

The Eloff Project is a large coal resource, potentially opencastable, which can supply a low-grade coal to the power generating industry and possibly be upgraded for local industrial consumption. The Project lies in the western extremity of the Witbank Coalfield, and the surrounding areas have supported a number of mining operations. The Eloff Project is located to the south of the town of Eloff, in the Mpumalanga Province of South Africa. The elevation of the project is some 1,620 metres above mean sea level.

Nhlalala Mining (Pty) Limited ("Nhlalala") - South Africa

In March 2006, the Company entered into an agreement to purchase a 50% interest in Nhlalala, with an option to acquire a further 1% for ZAR 1.00. Homeland is required to fund all costs associated with the applications for prospecting, as well as all costs associated with any granted prospecting rights through to the granting of a mining license. On October 11, 2006, Nhlalala was granted the rights to prospect on two of its projects.

(e) **Stock-based compensation**

The Company may grant incentive stock options to its officers, directors, employees and consultants, for the purchase of shares of the Company. Stock options are non-transferable. The Board of Directors of the Company determines the exercise price, which may be no less than the current market price at the time of the grant. Options have a maximum term of three years and terminate 90 days after the termination of employment or other contracting arrangement of the option holder. Vesting of options may be at the time of granting of the option or over a period as set out in each option agreement. Once approved and vested, options are exercisable at any time until expiry or termination as above.

The Company recognized stock-based compensation of \$239,500 (2006: \$1,138,530) based on options granted or vested in the respective periods. The fair values were determined using the Black Scholes option pricing model under the assumptions detailed in Note 8(d).

(b) Surface Rights

The Company has entered into an agreement to purchase the surface rights at the Kendal project, near Witbank in South Africa, dependent on Ferret Coal (Kendal) (Pty) Ltd. being granted their mining license. The purchase price is ZAR 4,800,000 (approximately \$725,000) of which ZAR 1,000,000 (approximately \$150,000) has already been paid as a deposit.

(c) Corplo 331 CC

The Company has entered into an agreement to purchase the shares of Corplo 331 CC, owner of the Northfield project, dependant on the granting of the mining licence for the Northfield project to the applicant, conversion of the close corporation to a private company, and the completion of due diligence. The purchase price is ZAR 12,000,000 (approximately \$1,810,000).

(d) Madic Operations

The Company has agreed to invest ZAR 6.3 million (approximately \$950,000) in Madic Operations to capitalize the development of the Madic continuous conveyor system, subject to a formal contract being entered into between the parties that would provide for the terms of repayment of the Company's initial investment, set out that the Company would have the right to purchase future systems at cost, and confirm the Company's 35% equity interest in Madic Operations.

13. SUBSEQUENT EVENTS

(a) Reverse take-over and public listing

On June 13, 2007, Homeland entered into an agreement (the "Acquisition Agreement") with Chrysalis IV Corporation ("Chrysalis") pursuant to which Chrysalis will acquire all of the issued and outstanding shares of Homeland, by way of the merger (the "Merger") of a newly formed British Virgin Islands subsidiary of Chrysalis and Homeland. Upon completion of the Merger, Homeland will become a wholly-owned subsidiary of Chrysalis (the "Resulting Issuer").

Completion of the Proposed Transaction is subject to compliance with all necessary regulatory approvals and certain other terms and conditions. When completed, the Proposed Transaction will constitute Chrysalis' "qualifying transaction" pursuant to the policies of the TSX Venture Exchange (the "Exchange").

THE QUALIFYING TRANSACTION

On or immediately prior to the closing of the Proposed Transaction, the common shares in the capital of Chrysalis ("Chrysalis Common Shares") will be consolidated on a 2:1 basis and the common share in the capital of Homeland ("Homeland Common Shares") will be split on a 4:1 basis. As consideration for the acquisition of all of the outstanding shares of Homeland pursuant to the Merger, Chrysalis will issue one Chrysalis Common Share for each one common share in the capital of Homeland.

Subject to the approval of the Exchange, up to 10% of the issued and outstanding common shares after the completion of the Proposed Transaction shall be reserved for issuance to directors, officers, employees and consultants.

It is anticipated that upon completion of the Proposed Transaction, the Resulting Issuer will meet the Tier 1 listing requirements of the Exchange for a mining issuer.

(b) Stock options

In August 2007, a further 300,000 stock options were granted to employees at an exercise price of US\$2.50 per share, valid for three years.

(c) Equity issues

On August 17, 2007, Homeland closed a private offering of 670,690 common shares at a price of \$3.20 per share, for gross proceeds of \$2.1 million.
